Hail, Saudi Arabia

About Me

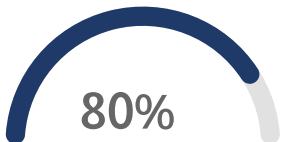

I'm a CS student at the University of Hail who builds clean, responsive web pages using HTML and CSS — and I'm not stopping there. I'm currently digging deeper into JavaScript and starting to get my hands dirty with real development tools like Node.js and React. On the side, I've worked in retail like "JarirBookStore", so I know how to talk to people, solve their problems, and explain tech in a simple way.

SKILLS

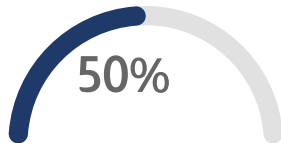

100%

HTML & CSS

80%

JavaScript

50%

Node.js, Java
Python

🗣 Languages

English

- Comfortable in tech, work, and daily use

95%

Arabic

- Native

100%

YAZEED H. ALMALAQ

Computer Science Student

Front-End Developer

My Experiences

2023 - 2025

Jarir Bookstore – Sales Department

- Sold phones, books, and helped customers find what actually fit their needs

Web Design & Development

- Built real web pages using HTML and CSS on freeCodeCamp. Focused on how to structure content properly and design clean layouts that actually make sense on screen. Learned by building, not just watching.

Education

University of Hail

- BSc in Computer Science
Expected 2026
- GPA: 3.81 / 4.0 – Honor Student

freeCodeCamp

Responsive Web Design Certification

- Built real pages
- Learned how content should feel on screen — not just how it looks
